Trauma-Informed Psychological Assessment - February 26, 2021

50%

Although psychological assessment is a core criterion for doctoral level coursework, it is less common for individuals to have direct training in trauma-informed measures and administration. This presentation will provide an overview of measures and concepts associated with the assessment of psychological trauma. There will be a particular focus on assessing symptom feigning, as there continues to be a lack of knowledge about how severely traumatized individuals perform on various validity scales or measures.

Presented by:
Tyson D Bailey, PsyD ABPP
